TECHNICAL PROJECTS

MONEYUP – CAPSTONE PROJECT

May 2026

Project Manager & Full Stack Developer

- Directed planning and sprint execution while developing backend APIs, authentication, and database integrations.
- Architected system workflows and implemented frontend and backend components to support core functionality.
- Independently designed and implemented the budget tracking feature within a collaborative honors project.

TASK AND TO-DO LIST MANAGER APP

Jul 2025

Founder & Full Stack Developer

- Developed a React and JavaScript-based task manager with task creation, categorization, and authentication.
- Integrated local storage in JavaScript to retain user data between sessions.
- Utilized Trello and Figma for planning and design, and Git/GitHub for version control and collaboration.

HONORS SCHOOL MANAGEMENT SYSTEM PROJECT

Apr 2025

Independent Backend Developer

- Built secure MySQL database with triggers, stored procedures, and role-based access control.
- Enforced AES encryption and bcrypt hashing to protect sensitive student data.
- Designed audit logging to maintain accountability across all system transactions.

EVENTLINK – CAMPUS EVENT HUB

Apr 2025

Independent Full Stack Developer

- Developed a Django/Python web application for browsing, RSVP, and tracking campus events.
- Implemented user authentication, role-based access, and event history tracking.
- Designed and managed database models using Django ORM for secure user and event data.

WORK & LEADERSHIP EXPERIENCE

ARKANSAS TECH UNIVERSITY

President of Honors Council

Russellville, AR

Aug 2024 – May 2025

- Directed council initiatives, fostering collaboration and problem-solving across student leadership.
- Spearheaded event planning and logistics, improving organizational efficiency by 20%.
- Mentored peers in leadership development and project coordination to strengthen council impact.

TARGET

GM and Food Team Member/Starbucks

Little Rock, AR

May 2023 – Aug 2023

- Optimized inventory processes to reduce waste and maintain high-demand stock levels.
- Adapted to fast-paced environments by resolving operational challenges under pressure.
